

ENVIRONMENTAL POLICY OF CARBALLO BEACHES: RAZO, BALDAIO-SAIÑAS AND PEDRA DO SAL

Protecting the environment is a constant challenge of society, both nationally, and internationally. We are currently witnessing a spectacular growth in public awareness of environmental degradation of our planet due to human action. Aware of this the Beach Department has implemented an Environmental Management System according to UNE 14001 “Environmental management systems -- Requirements with guidance for use” and to Regulation [EMAS](#), on the beaches of Razo, Baldaio - Saiñas and Pedra do Sal.

The scope of the above mentioned system is the Management of the beaches of Razo, Baldaio-Saiñas and Pedra do Salt.

The Beach department includes within its management, the establishment and continuous review of an environmental management system to enable the achievement of the targets and environmental goals set and establishes the following Environmental Policy:

CONTINUOUS IMPROVEMENT, COMMITMENT TO ENVIRONMENT PROTECTION, POLLUTION PREVENTION AND SUSTAINABILITY

- Seek continuous improvement through systematic and regular assessment of the Environmental Management System.
- Make a continued effort to identify, characterize and minimize the impact on the environment caused as a result of the activities carried out in the beaches and ensure an efficient use of natural resources and energy sources.
- Develop our activities so we seek to satisfy all those who visit the beaches, without compromising the resources of future citizens.
- Commitment to environment protection and the effective prevention of pollution.

COMPLIANCE WITH LAW ENFORCEMENT AND OTHER REQUIREMENTS

- Ensure compliance with environmental regulatory requirements applicable to manage beaches of Razo , Baldaio - Saiñas and Pedra do Sal

ENVIRONMENTAL INFORMATION AND TRAINING

- Inform all those visiting the beaches and those responsible for the activities carried out on the beaches about the use of the available services in order to ensure the correct environmental behavior.
- Promote, through the development of training programs and motivation, a sense of responsibility towards the environment among the staff of the Beach Department.

SUPPLIERS

- Communicate environmental and sustainability criteria to all persons or companies who work on our beaches and invite suppliers to abide by this Environmental Policy in their daily work.

Revised and approved, Carballo 20 of August 2018

Signed: Mr. Evencio Ferrero Rodríguez

(Mayor- President of the Beach Department)
